Domestic Spellbinders Favor Constitutional Convention.

MUCH IN LINE

Agrees With Republicans and Tells His Reasons.

Oklahoma City, O. T., March 23.-C. Porter Johnson, of this city, one of the Democratic "spelibinders" of the territory, is much in favor of a constitutional convention, believing that it should be called as soon as possible; and that it will have the effect of hastening statehood for Oklahoma. Mr. Johnson's ideas are much in line with the views of prominent Republicans relative to a constilished in recent bases of the Eagle. Mr. Johnson says, as follows:

"I am in favor of a constitutional convention, and believe it should be called at the earliest practical moment, giving due notice to the people, that there may be a fell, free afid fair expression, not on-ly in the selection of delegales to the convention, but upon such questions as the people may desire to have incorpothe people may desire to have incorpo-rated in the constitution. The holding of a conciliutional convention, in advance of any action by congress, is not unusual, and was the method adopted by some ten-or twelve territories prior to their admission. Such a course has been approved by the courts and by congress. A con-stitution adopted at a convention fully representative and properly called, may be made as operative as though it were called in obedience to an act of concalled in obedience to an act of con

The committee should also designate the qualifications of voters. This would, as far as possible, make the election a fair one, and the delegates tion.

Others, that Oklahoma was entitled to statehood, but Indian terri-tory was not prepared for it. It is now scherally conceded that the two territo-les must be one state and are follories must bee one state, and are fully qualified to enter the Union as a state. "The hading of a constitutional con-vention, composed of delegates from vention, composed of delegates from both territories, properly and fairly elect-ed, would demonstrate beyond question what the people want in the way of statehood. In such a manner we could present to congress such a constitution as we want, before congress would place restrictions upon our wishes, and while congress could modify a constitution so adonted, it would at least know what the congress could modify a constitution so adopted, it would at least know what the people want. It would bend to an early settlement of the issue. It would be the united voice of a million people, demanding that they be admitted to all the rights and privileges of sovereign citizens. It would be the greatest and most solemn petition ever presented to the American congress. It would accomplish results. It would be certain and definited it would be conclusive. The voice of the politician, effice-holder and grafter would be silent in the presence of such a united demand. It is the thing to do, it is practical, and at once appeals to every intel-

Guthrle, O. T., March 21 .- "I have requested the Department of the Interior to send a special agent to Okiahoma to fairs of the Oklahoma Sanitarium at Norman," said Governor T. B. Ferguson, today to the representative of the Eagle. "I am desirous that every detail be looked into relative to this institution. Every little while something comes up and old straw is threshed over again, which is becoming obnoxious. It has gone out to the public by the medium of the press that there seems to be something radical-ty wrong in connection with the santtarium and I want the Department of the Phterior to be fully apprised of the real situation. When Governor Ferguson received his commission, he was instructed by President Roosevelt to investigate in Oklahoma and ascertain who held stock in the Sanitarium company. The governor made a full and exhaustive report and apparently this settled the matter. There are none who will state that the governor from sediment. It would seem that after the Governor turned down certain applicants for office, the sanitarium matter was brought up again. How long such a thing would be kept up is problematical, but Governor Ferguson proposes to put a stop to it by having the Depart-ment of the Interior make a full investi-gation. An investigation by the Editor of this paper of the many miraculous cures made by Warner's Safe Cure has so impressed us with the curality powers of this great medicine that we publish two of these letters for the benefit of our readers. Mr. J. The age girls said they would go home and send back the money. The Wadworth girl said a gentleman in Stroud had some of her money and she would go get it. The man was away from home and she then telegraphed a bank at Senera but there telegraphed a bank at Seneca but there was some delay in hearing from there and she told one of the girls she couldn't stand the disgrace and believed she would kill herself. The girls didn't think she meant it and went on to the agancy. After they were gone she went into a drug store and bought two ounces of carbolic acid. She then went to another store and back to the water bucket where it is supposed that she dragk the acid as the empty bottle was found there.
